TABLE OF CONTENTS

Volume 49

ARTICLES

BERGSTRÖM, HANS and ULF HÖGSTRÖM / Turbulent Exchange above a Pine Forest II. Organized Structures 231

BERTELA, MANLIO / Inconsistent Surface Flux Partitioning by the Bowen Ratio Method 149

FRISCH, A. SHELBY, BROOKS E. MARTNER, and JANET S. GIBSON / Measurement of the Vertical Flux of Turbulent Kinetic Energy with a Single Doppler Radar 331

GONG, WANMIN and ALAN IBBETSON / A Wind Tunnel Study of Turbulent Flow over Model Hills 113

GOSINK, J. P. / The Extension of a Density Current Model of Katabatic Winds to Include the Effects of Blowing Snow and Sublimation 367

GUENTHER, ALEX and BRIAN LAMB / Atmospheric Dispersion in the Arctic: Winter-Time Boundary-Layer Measurements 339

HÖGSTRÖM, ULF, HANS BERGSTRÖM, ANN-SOFI SMEDMAN, SVEN HALLDIN, and ANDERS LINDROTH / Turbulent Exchange above a Pine Forest, I: Fluxes and Gradients 197

HUANG, CHING-YUANG and SETHU RAMAN / Application of the E-ϵ Closure Model to Simulations of Mesoscale Topographic Effects 169

JURY, MARK R. and GREG R. TOSEN / Characteristics of the Winter Boundary Layer over the African Plateau: 26°S 53

KUWAGATA, TSUNEO and JUNSEI KONDO / Observation and Modeling of Thermally Induced Upslope Flow 265

MASSMAN, W. J. and A. VAN DIJKEN / Water Vapor Transfer from a Vegetated Surface: A Numberical Study of Bulk Transfer Coefficients and Canopy Resistances 295

MCKENDRY, IAN G. / Numerical Simulation of Sea Breezes over the Auckland Region, New Zealand – Air Quality Implications 7

MEYERS, T. P., B. J. HUEBERT, and B. B. HICKS / HNO_3 Deposition to a Deciduous Forest 395

PHYSICK, W. L., D. J. ABBS, and R. A. PIELKE / Formulation of the Thermal Internal Boundary Layer in a Mesoscale Model 99

UNO, I., H. UEDA, and S. WAKAMATSU / Numerical Modeling of the Nocturnal Urban Boundary Layer 77

YE, Z. J., M. SEGAL, J. R. GARRATT, and R. A. PIELKE / On the Impact of Cloudiness on the Characteristics of Nocturnal Downslope Flows 23

YINZI, XU and ZHAO MING / The Wind Field in the Nonlinear Multilayer Planetary Boundary Layer 219

ZILITINKEVICH, S. S. / The Temperature Profile and Heat Transfer Law in a Neutrally and Stably Stratified Planetary Boundary Layer 1

RESEARCH NOTES

ARRITT, RAYMOND W. and WILLIAM L. PHYSICK / Formulation of the Thermal Internal Boundary Layer in a Mesoscale Model. II. Simulations with a Level–2.5 Turbulence Closure 411
BARNDORFF-NIELSEN, O. E., J. L. JENSEN, and M. SØRENSEN / Wind Shear and Hyperbolic Distributions 417
BELJAARS, ANTON C. M. and PETER A. TAYLOR / On the Inner-Layer Scale Height of Boundary-Layer Flow over Low Hills 433
MORITZ, ERWIN / Heat and Momentum Transport in an Oak Forest Canopy 317
VISWANADHAM, D. V. and K. R. SANTOSH / An Estimation of Wind Energy along the Indian Coasts 439
WILSON, J. D. and Y. ZHUANG / Restriction on the Timestep to be Used in Stochastic LaGrangian Models of Turbulent Dispersion 309

BOOK REVIEW

Ib Troen and Erik Lundtang Petersen, *European Wind Atlas* (PETER TAYLOR) 445
